

# HUNTINGDON

M A N O R

The Huntingdon Manor is pleased to announce that we have signed the Sustainable Tourism 2030 Pledge to demonstrate our commitment to improving our sustainability score between now and 2030.

The UN World Tourism Organization defines sustainable tourism as “tourism that takes full account of its current and future economic, social, and environmental impacts, addressing the needs of visitors, the industry, the environment, and host communities.”

Each year, we commit to measuring and improving our sustainability performance in the following ways:

- Measure our energy consumption and identify ways to further improve our energy efficiency, lower costs, and reduce our carbon footprints.
- Support sustainable entrepreneurs by developing a carbon-neutral/sustainable purchasing policy.
- Partner with local First Nations to promote reconciliation and traveller/employee education.
- Incorporate the United Nations’ 17 Sustainable Development Goals into our corporate policy and operation by becoming a Biosphere accredited Hotel.

At Huntingdon Manor we believe that a circular tourism economy starts on an operational level. We will continue to strive to operate a hotel that is socially and environmentally responsible to our community, and our planet.

Signed,

Erin Cassels, General Manager

Signed,

Julia Canton, DOS/Sustainability Manager
